

ShopEase Nepal

Shipping Policy

Effective date: October 1, 2026

This policy describes ShopEase Nepal's delivery areas, processing times, delivery estimates, shipping charges, and procedures for delayed or damaged shipments.

1. Delivery Coverage

ShopEase currently delivers to serviceable addresses within Nepal. Delivery availability depends on the courier network and the destination address.

Some remote areas may require additional delivery time or may not be serviceable for selected products.

2. Order Processing

Orders are normally processed within 1–2 business days after payment confirmation.

Orders placed on public holidays or outside normal processing hours begin processing on the next business day.

Made-to-order products may have a separate processing time stated on the product page.

3. Estimated Delivery Times

Kathmandu Valley: approximately 1–3 business days after dispatch.

Major cities outside Kathmandu Valley: approximately 2–5 business days after dispatch.

Other serviceable locations: approximately 3–8 business days after dispatch.

Delivery estimates are not guaranteed and may be affected by weather, transportation disruption, public holidays, strikes, incorrect addresses, or other events outside ShopEase's control.

4. Shipping Charges

Standard delivery within Kathmandu Valley is NPR 100 for orders below NPR 2,000.

Orders of NPR 2,000 or more qualify for free standard delivery within Kathmandu Valley.

For destinations outside Kathmandu Valley, the shipping fee is calculated at checkout based on destination, package size, weight, and courier availability.

Any special delivery fee shown at checkout must be paid before dispatch.

5. Tracking

When tracking is available, ShopEase sends the tracking information to the customer's registered email address or phone number after dispatch.

A tracking status may take up to 24 hours to appear after the courier receives the package.

6. Delivery Problems

If a package arrives visibly damaged, customers should photograph the package before opening it and contact ShopEase within 48 hours.

If an order has not arrived within 3 business days after the latest estimated delivery date, customers should contact support so the shipment can be investigated.

If an incorrect address was supplied by the customer and the courier cannot complete delivery, additional delivery charges may apply.

7. Failed Delivery

The courier may attempt delivery more than once. If delivery fails because the recipient is unavailable or unreachable, the package may be returned to ShopEase.

A re-delivery charge may apply when the failed delivery resulted from an incorrect address or repeated unavailability.
